SHARNITHA T

sharnithat@gmail.com | +91 7667073298 | Coimbatore, Tamil Nadu | Linkedin | Github

Profile Summary

Aspiring Data Analyst with strong knowledge of data analysis, visualization, and reporting. Proficient in Excel, Power BI, SQL, and data transformation, with experience in cleaning, analyzing, and interpreting datasets to generate meaningful insights. Experienced in creating dashboards, reports, and visualizations, working with databases, and applying analytical techniques to solve business problems. Passionate about working with data, solving complex problems, and delivering accurate, data-driven solutions.

Technical Skills

Data Analytics: Excel, Power Query, Power BI, Data Cleaning, Data Transformation, Data Analysis, Data Modeling, Reporting, Dashboard Development, Data Visualization
Programming, Querying & Databases: Python, SQL, MySQL, Java (Intermediate), MongoDB, DBMS
Data & ML Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, OpenCV
Web Technologies: HTML, CSS, JavaScript, Node.js, Express.js
Core Skills: Analytical Thinking, Problem Solving, Critical Thinking, Communication, Team Collaboration, Adaptability, Time Management

Experience

Data Analytics Intern Jun 2026 – Jul 2026
DecodeLabs

- Worked on practical data analytics projects involving dataset analysis, business-oriented problem solving, and collaborative analytical tasks.
- Applied data analytics concepts to organize, analyze, and interpret datasets to identify meaningful patterns and insights.
- Strengthened practical skills in data analysis, analytical thinking, problem solving, and collaborative project execution.

Full Stack Web Development Intern May 2025 – Jun 2025
Career Ladder

- Developed responsive and cross-browser web pages using HTML, CSS, and JavaScript.
- Built and tested 5+ RESTful API endpoints using Node.js and Express.js to support application features.
- Integrated MongoDB and MySQL databases and collaborated with front-end developers in an agile team environment.

Projects

Flight Booking and Travel Data Analysis [GitHub] Aug 2026

- Analyzed flight booking data to understand airline performance, booking demand, customer preferences, and pricing patterns for data-driven travel insights.
- Cleaned and transformed 1,200 records using Excel and Power Query, performed data modeling and analysis with PivotTables, and prepared the data for visualization.
- Built a Power BI dashboard to present booking and airline performance insights, revealing demand patterns and key trends to support informed business decisions.

Fingerprint-Based Blood Group Detection [GitHub] Jan 2026 – Apr 2026

- Developed an AI-based system to predict blood groups from fingerprint images, providing an automated alternative to manual blood group identification.
- Applied image preprocessing and feature extraction techniques to improve fingerprint pattern recognition by 15%.
- Built and evaluated a machine learning model achieving 92% classification accuracy and developed a Flask-based application for fingerprint image prediction.

Education

Program in AI Driven Data Analytics Jul 2026 – Dec 2026
Entri Elevate | In Progress

B.Sc Computer Science Jun 2023 – May 2026
PSG College of Arts & Science | CGPA: 8/10

Higher Secondary Education Jun 2022 – Mar 2023
Vidya Mandir Matriculation Higher Secondary School | Grade: 82%

Certifications

AI-Driven Data Analytics – Entri Elevate Jul 2026 – Dec 2026
HTML, CSS, JavaScript & Excel – LinkedIn Learning May 2025
MS Excel – LinkedIn Learning May 2025
Artificial Intelligence – NoviTech R&D Pvt. Ltd. Jul 2024 – Aug 2024
